Internal Audit Department

COUNTY OF ORANGE

CAAT Program: This report details the monthly activity and findings from establishing Computer-Assisted Auditing Techniques (known by the acronym CAAT) as part of our information technology audit coverage. We are using a proprietary, state-of-the-art/best practices and industry recognized software product to help us in this process. We are keeping the details of our process and the vulnerabilities identified to a general discussion because of the risks associated with disclosing specific details of our financial and accounting processes.

The CAAT is a continuing and evolving audit process with the goal of developing a toolset of computer-routines and techniques that will analyze patterns in the individual data elements of the County's financial data. The resulting data/exceptions will be subjected to further review, analysis validation, recovery and evaluation of internal control enhancements whose purpose is to prevent future occurrences of the findings identified by the CAAT process.

1. CAAT Performed: **Duplicate Payments.** We used a CAAT to identify potential duplicate payments made during November 2003.

Results: No potential duplicate payments were identified in the November 2003 data.

The table below summarizes the duplicate payment activity to date:

CAAT Report	Total		Not Duplicates		Recovered		In Process	
	#'s	\$'s	#'s	\$'s	#'s	\$'s	#'s	\$'s
May 2002	12	\$12,921	0	\$0	1	\$8,090	11	\$4,831

November 2003	6	\$3,737	0	\$0	0	\$0	6	\$3,737
December 2003	0	\$0	0	\$0	0	\$0	0	\$0
TOTAL	153	\$133,286	11	\$10,595	30	\$44,496	112	\$78,195

Background: This CAAT concentrates on a sub-set of vendor invoices paid by the County possessing certain common attributes. The CAAT reviews the attributes and highlights potential duplicate payments for further review and

verification. During the month of December 2003, a total of 13,767 invoices for \$162,168,232 were added to this data sub-set representing November 2003 transactions.

Currently, the data sub-set includes a total of 803,950 invoices totaling \$5,779,650,802. The total data file that the sub-set is derived from includes 3,310,212 records totaling \$9,671,273,492.

2. CAAT Performed: **Employee/Vendor Match.** We used several CAATs to identify employees that are closely linked to a vendor as a result of sharing a similar address or tax id number.

Status: The table below tracks the employee/vendor matches currently being reviewed.

CAAT Report Month	Data Matches	Adjustments by Audit	Submitted to CEO/HR	In Progress	CEO/HR Disposition			
					Not a Valid Match	No Conflict Exists	Potential Conflict - CEO/HR to Take Appropriate Action	
November 2002	178	(140)	38	5	2	25	6	
April 2003	12	(4)	8	0	5	0	3	
June 2003	10	(0)	10	1	4	4	1	
TOTAL				56	6	11	29	10

3. CAAT Performed: **Retiree/Extra Help Hours.** We used a CAAT to identify retirees working as extra help for more than 960 hours (maximum allowed) during fiscal year 02-03.

Status: Since there is little risk that retirees will exceed the 960 hour limit early in the fiscal year and since CEO/HR has implemented a process to monitor working retirees, this CAAT will not be run monthly, but as needed later in the fiscal year.

4. CAAT Performed: **Direct Deposits.** We used a CAAT application to review for multiple employee paychecks that are directly deposited to the same bank account.

Results: This CAAT was applied in December 2003 with no irregular deposit activity identified.

5. CAAT Performed: **Deleted Vendors.** We used a CAAT to identify Vendors that have been deleted or removed from the Vendor Master List.

Results: This CAAT was applied in December 2003 with no significant findings.
