- Developed the B2B EC Integration Strategy implemented to pass perishable grocery product information to producers, distributors, buyers (grocery retailers, re-processors, packers).
- Defined the relational database Application Interface strategy for passing data to, and receiving data from the TIE (formerly St. Paul Software) Translator/Mapper product.
- Developed SQL 7 stored procedures and the VB modules used to produce the Application Flat File used for mapping the EDI, XML and Flat File interfaces sent to/received from trading partners.
- Developed SML Schema used as basis for implementing initial MS BizTalk mapping.

**10/99 to 3/00**

### **Wyle Electronics**

- Validated that daily EDI/eCommerce communications with trading partners completed successfully and resolved those that were found to be in error.
- Developed CICS/DB2 program enhancements to make tracking of inbound orders easier for the Wyle Help Desk.

**5/99 to 9/99**

### **TRB Computer / Internet Services**

- Implemented small business software packages (Intuit Quickbooks, Peachtree Complete Accounting) for local companies.
- Developed "How-To" abbreviated User documentation to reduce user's start-up learning curve. Performed website requirements analysis for these same companies.
- Provided mentoring/tutoring services to individuals wishing to fast forward their desktop computer skills.

**11/97 to 4/99**

### **Oracle Corporation**

#### ***Oracle Online Learning Applications (OLA) Project***

- Project Lead for initial implementation of application at California State University, Northridge: installed product and provided client technical support, conducted OLA Training classes at client site, and developed technical documentation to support and maintain the application.
- Supported development teams v2.0 new features: Data Synchronization for importing DB and FlatFile data into OLA and fine tuning the new Reports.

### **Oracle Global Registration System (GRS)**

- Setup and conducted Transfer Of Information (TOI) of the Oracle Grants Management System functionality from the Functional and Technical Design Teams to the Technical Writing staff.
- Technical Writer, responsible for developing this project's User Guide and other related documents using Adobe FrameMaker v5.5 (Oracle's documentation standard) and MS Word.  
*By understanding the Designer/2000 architecture it was possible to extract the information necessary to produce a finished product ready for publishing in print media and on Oracle's web site.*
- Performed the HTML conversion from FrameMaker using Quadralay's WebWorks Publishing tool.

### **The California State University (CSU) Cooperative Administrative Systems Authority (CASA)**

Member of Oracle Consulting Team developing the Student Information Management System (SIMS).

- Developer 2000, Forms 4.5 used to produce system's online screens and programmed extensively in PL/SQL to develop batch procedures to run on CSU campus' Networked MVS mainframes.
- Ported PL/SQL code to MVS Host, modified JCL as needed to successfully system test in SIMS MVS environment.

**12/95 - 8/97**

#### **Hunt-Wesson, Inc.**

- Installed Sterling Gentrans 3050 / 3050UCS Standard
- Designed and developed ASN/Barcode customer data download strategy that allowed activating new trading partners in test or production mode at any of H-W's bar-coding plant locations.
- Developed Model process for handling outbound SAP generated EDI application I/F files requiring minimal LEGACY "value adding."
  - *Quickly implemented Outbound Purchase Orders (850) for Office Depot and other supply chain vendors.*
  - *Used to implement outbound 857 Shipment/Billing Notice and 867 Product Transfer/Resale Report*

**10/94 - 6/95**

Re: Statement of Interest in serving on the Santa Ana Heights Redevelopment Agency  
**Project Advisory Committee**

Dear Supervisor Moorlach,

I very much appreciate your considering my application to serve on the PAC with Barbara Venezia, Chairman.

I have been a long time attendee of PAC meetings (over 4 years) and have participated with two of its subcommittees:

- **Development** – preliminary discussion with principal of Waterpointe Development presenting their proposal to develop 34 Townhomes within Westside SAH. A very impressive presentation following which I participated in the discussion of the content of PAC's recommendation to the Planning Commission on this project. I later brought opinions from our community supporting this project to the Supervisors and spoke in favor of the project contributing to its being approved by that body.
- **Undergrounding Special Committee** – Included in my Bi-monthly newsletter to Westside SAH the survey questions on a future undergrounding project for Westside SAH. I have started door-to-door visits to my neighbors to further explain the scope of the project and to solicit their thoughts on it at the request of that committee's present chairman.

I have years of community service experience including:

- **Glendale Junior Chamber of Commerce Board of Directors** (2 years)
- Scout Fair Executive Committee – **Chairman of Judging and Awards** (6 years) with Roger Summers (former PAC Chairman)
- **Boy Scout Advancement Chairman** for the BSA Troop of which my 3 Eagle Scout sons were members and where we averaged 10 Eagle Scout advancements each of the 7 years I was in that position.
- **Public Affairs Committee** for my church
- Realtor (First Team RE) meeting most residents in Westside SAH at least once every quarter.
- Publish bi-monthly Homeowner's Guide newsletter focused on the interests of Westside SAH

Thank you again for your consideration in this matter.

Sincerely,

Edward D. "Ted" Bosley
